APEX CARBON FIBER

CARE AND CLEANING

- ❏ Careless use of the helmet may alter its performance.
- ❏ You can clean the helmet with mild Soap or Shampoo and water. The removable lining can be washed by hand or in the washing machine with warm water and neutral soap or shampoo. The lining should be left to air dry.
- ❏ Never use oil or petroleum products and chemical solvents on the helmet as they damage the structure and components of the helmet.

VISOR

- ❖ The visor of the helmet should be kept clean and far as possible.
- ❖ Clean the visor with an soft cloth, Warm water and mild soap. If the visor is damaged or deeply scratched causing reduced visibility, this means that the protective treatment is probably damaged and need to be replaced

STORAGE

- ❖ When not in use, always store your helmet at room temperature in its original bag.
- ❖ Do not store in damp places, whatever the degree of environment humidity.

Thank you for purchasing your helmet.
We are confident that it will fulfill
your expectation and to ensure you make the most of it.
We include a brochure containing
all the information you may need on your new helmet.
